The No Way In Hell Extreme Enduro is back for 2024, also with a new race format. The main race will start out fairly easy, being cross-country style riding for about the first 30kms. Then the next 20 odd kms of the course will start to get harder with some more technical ups and downs, rocky creeks etc. Then the last 10 or so km will be full-on 'No Way In Hell' extreme terrain.
